Terms and Conditions

- License Grant. Subject to the terms of this Agreement, ProQuest LLC and its affiliates ("ProQuest") hereby grant to Customer a non-exclusive, non-transferable license (the "License") for Customer and its Authorized Users to access and use the products and services listed on Customer's approved Order Form (the "Service") solely at Customer's principal location and those locations identified on the Order Form or a separate schedule ("Additional Sites"). Additional locations may be added as Additional Sites upon written notice to ProQuest and payment of additional fees, if applicable. Access and use of the Service is only for the internal, research purposes of Customer and/or its Authorized Users as further described in Exhibit A (Permitted Uses). Customer does not acquire any intellectual property ownership in the Service or any associated software, systems, documentation, content, other materials and/or improvements made thereto, including improvements based upon customer feedback. All such rights and interests remain in ProQuest and its licensors.
- Authorized Users. Unless otherwise detailed on the Order Form, "Authorized User" means only: (a) For public libraries: library staff, individual residents of Customer's reasonably defined geographic area served, and walk-in patrons while they are on-site; (b) For schools and other academic institutions: currently enrolled students, faculty, staff, and visiting scholars, as well as

walk-in patrons while they are on-site; and (c) For other types of organizations: employees and independent contractors, while performing their work. Authorized Users excludes Customer's corporate affiliates, academic bookstores, and alumni unless those users are expressly included and reflected on the Order Form or Additional Sites Schedule.

3. Secure/Remote Access. All access and use of the Service must be made via a secure network and secure authentication methods. Use of the Service by remote access is allowed unless otherwise stated on the Order Form. Customer will strictly limit any remote access to its Authorized Users through the use of secure methods of user verification. Customer will promptly notify ProQuest if Customer believes security has been compromised. Posting or sharing of passwords, or otherwise enabling access for the benefit of non-subscribing institutions or users, is strictly prohibited.
4. Updates to the Service. ProQuest will provide reasonable notice of any substantial modifications of information, databases, materials, capabilities, or services within the Service by email to Customer's representatives who sign up to receive updates. These changes shall be subject to the terms and conditions of this Agreement, and shall not materially alter use of the Service in an adverse manner.
5. Supplemental Terms. Some content included in the Service has terms of use applicable solely to such content. Content-specific terms are clearly displayed with the associated content or embedded in the systems and technologies incorporated into the Service. Where third-party databases or content are subject to supplemental terms, such terms shall be clearly referenced on the Order Form. Such supplemental terms shall not materially alter use of the Service.
6. Variations in Content. The content provided as part of the Service is primarily owned and supplied to ProQuest under agreement with third party licensors, and is subject to the continuation and extent of the license granted under such agreements. ProQuest shall have the right, in its reasonable and good faith discretion, to remove or modify materials in the Service because (a) ProQuest's right to distribute such materials lapses, (b) such materials contain errors or could be subject to an infringement or other adverse claim by a third party, or (c) particular content collections have changed due to editorial selection, coordination, or arrangement of materials.
7. Fees and Payments. Customer agrees to pay the fees for the Service shown on the Order Form within 30 days of receipt of ProQuest's invoice unless otherwise specified on the Order Form. Fees are based in part on Customer's population served, Authorized Users and Additional Sites at the time of the order or such other license parameters as may be listed on the Order Form. If any one or a combination of these elements materially increases (e.g., if the Customer acquires a new affiliate), a fee increase commensurate with such change may be required before access and use of the Service is provided to or for the benefit of the additional user population and/or Additional Sites.
8. Term. Customer's access to a particular Service shall continue for the period on the Order Form, plus any agreed renewal period(s). This Agreement shall continue in force for so long as Customer subscribes to at least one Service. Thereafter, the following survive: Sections 8-10 and 12-15, and any perpetual archive licenses ("PAL") (subject to all relevant use restrictions and security requirements).
9. Termination for Breach. If a party breaches a material term of this Agreement and does not cure within 30 days from written notice, the other party may immediately terminate this Agreement in whole or as to the affected Service. If this Agreement is terminated in whole or in

part for Customer's breach, (a) ProQuest shall disable access to any terminated Service, (b) Customer shall destroy any files, information, data or software derived from any terminated Service in its possession or control, and certify destruction upon request, and (c) ProQuest reserves the right to pursue all available legal remedies.

10. Remedial Action. Without limiting the above, ProQuest may suspend delivery of the Service if it reasonably determines that Customer's or an Authorized User's failure to comply with this Agreement may cause irreparable harm to it or its licensors. If delivery is suspended, ProQuest will work in good faith to restore Customer's access as soon as possible after the failure to comply has been remedied in full.
11. Service Level. If the Service or content are hosted by ProQuest, ProQuest will use commercially reasonable efforts to provide access to the Service on a continuous 24/7 basis (except for regularly scheduled maintenance) and free from viruses or other harmful software. ProQuest shall not be liable for any failure or delay or interruption in the Service or failure of any equipment or telecommunications resulting from any cause beyond ProQuest's reasonable control. Customer is responsible for providing all required information for account set up and activation, and for its own telecommunications connections and related third-party charges.
12. Limited Warranty and Disclaimer of Warranty. ProQuest warrants that the Service will perform substantially as documented on ProQuest's public websites (the "ProQuest Websites"). EXCEPT AS EXPRESSLY WARRANTED HEREIN, THE SERVICE IS PROVIDED "AS IS" AND "AS AVAILABLE." PROQUEST AND ITS LICENSORS DISCLAIM ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, THOSE PERTAINING TO: MERCHANTABILITY, NON-INFRINGEMENT, FITNESS FOR A PARTICULAR PURPOSE, AVAILABILITY, ACCURACY, TIMELINESS, CORRECTNESS, RELIABILITY, CURRENCY, OR COMPLETENESS OF THE SERVICE OR ANY INFORMATION OR RESULTS OBTAINED THROUGH THE SERVICE, EVEN IF ASSISTED BY PROQUEST. PROQUEST SPECIFICALLY DISCLAIMS ANY RESPONSIBILITY FOR DETERMINING THE COMPATIBILITY OF ANY HARDWARE OR SOFTWARE NOT SUPPLIED BY PROQUEST WITH THE SERVICE AND PROVIDES NO WARRANTY WITH RESPECT TO THE OPERATION OF SUCH HARDWARE OR SOFTWARE WITH THE SERVICE.
13. Limitation of Liability. THE MAXIMUM AGGREGATE LIABILITY OF PROQUEST AND ITS LICENSORS ARISING OUT OF OR RELATED TO THE SERVICE OR THIS AGREEMENT SHALL BE LIMITED TO THE TOTAL AMOUNT OF FEES RECEIVED BY PROQUEST FROM CUSTOMER FOR THE RELEVANT SERVICE IN THE 12 MONTHS IMMEDIATELY PRECEDING THE EVENTS GIVING RISE TO THE CLAIMS. IN NO EVENT SHALL PROQUEST OR ITS LICENSORS BE LIABLE TO CUSTOMER OR ITS AUTHORIZED USERS FOR (a) ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR SPECIAL DAMAGES; OR (b) ANY CLAIM RELATED TO CUSTOMER'S OR ITS AUTHORIZED USERS' USE OF COVER IMAGES OR USER-GENERATED CONTENT PROVIDED AS PART OF THE SERVICE; OR (c) UNAUTHORIZED USE OF THE SERVICE.
14. Place. Services include materials that are commercial technical data and/or computer databases and/or commercial computer software, as applicable, which were developed exclusively at private expense by ProQuest LLC. ProQuest's principal place of business, where this contract is formed and all services will be deemed performed, is 789 E. Eisenhower Pkwy, Ann Arbor, MI 48108. Notwithstanding the foregoing, the Agreement shall be construed according to the laws of England and shall not be subject to or governed by The United

Nations Convention on Contracts for the International Sale of Goods. You consent to the non-exclusive jurisdiction of courts situated in England in any action arising under this Agreement. Should any dispute arise under this Agreement, the English language version of the Agreement shall control.

15. Entire Agreement. This Agreement consists of these Terms and Conditions, any applicable Order Form referencing these Terms and Conditions, and any Exhibits or Addenda attached hereto or referencing this Agreement (including the Exhibit A, Permitted Uses), and constitutes the entire agreement between the parties hereto with respect to its subject matter and supersedes all previous and contemporaneous agreements between the parties with respect to the same subject matter and may not be amended, except in a writing signed by the parties. The terms of Customer's purchase orders, if any, are for Customer's convenience and do not supersede or supplement any term or condition of this Agreement.

Exhibit A: Permitted Uses

1. Online Research Services. Services designed to facilitate online research may be used for Customer's internal research or educational purposes as outlined below provided that doing so does not violate an express provision of this Agreement:
 - a) Research and Analysis. Customer and its Authorized Users are permitted to display and use reasonable portions of information contained in the Service for educational or research purposes, including illustration, explanation, example, comment, criticism, teaching, or analysis.
 - b) Digital and Print Copies. Customer and its Authorized Users may download or create printouts of a reasonable portion of articles or other works represented in the Service (i) for its own internal or personal use as allowed under the doctrines of "fair use" and "fair dealing"; (ii) when required by law for use in legal proceedings or (iii) to furnish such information to a third party for the purpose of, or in anticipation of, regulatory approval or purpose provided that the recipient is advised that the copies are not for redistribution. All downloading, printing and/or electronic storage of materials retrieved through the Service must be retrieved directly from the on-line system for each and every print or digital copy.
 - c) Electronic Reserves, Coursepacks, and Intranet Use. Provided that Customer does not circumvent any features or functionality of the Service, Customer may include durable links to articles or other works (or portions thereof) contained in the Service in electronic reserves systems, online course packs and/or intranet sites so long as access to such materials are limited to Authorized Users.
 - d) Fair Use/Fair Dealing. Customer and its Authorized Users may use the materials contained within the Service consistent with the doctrines of "fair use" or "fair dealing" as defined under the laws of the United States or England, respectively.
 - e) Academic Institutions, Schools, and Public Libraries. If Customer is an academic institution, school, or public library:
 - i. Interlibrary Loan (ILL). Library Customer may loan digital or print copies of materials retrieved from the Service to other libraries, provided that (i) loans are not done in a manner or magnitude that would replace the receiving library's own subscription to the Service or purchase of the underlying work (e.g., newspaper, magazine, book), (ii) Customer complies with any special terms governing specific content or licensors as described in this Agreement, (iii) with respect to ebooks, copying is limited to small portions of a book, and (iv) Customer complies with all laws and regulations regarding ILL.
 - ii. Scholarly Sharing. Customer and its Authorized Users may provide to a third party colleague minimal, insubstantial amounts of materials retrieved from the Service for personal use or scholarly, educational research use in hard copy or electronically, provided that in no case is any such sharing done in a manner or magnitude as to act as a replacement for the recipient's or recipient educational institution's own subscription to either the Service or the purchase of the underlying work.
2. All Streaming Video and Audio Products. Audio and Video files are delivered to Customer and its Authorized Users via streaming service over the Internet. Customer and its Authorized Users shall not download or otherwise copy the streaming videos or audio contained in the Service. In the case of content that can potentially be publicly performed, Customer must secure permission from ProQuest's Licensor and/or the copyright holder for any public performance other than reasonable classroom and educational uses.

3. MARC Records. MARC records may be placed in Customer's online public access catalog (OPAC) or shared online catalog (e.g., WorldCat) unless otherwise specified on the Order Form with respect to a particular Service.
4. Scholar/Researcher Profiles. The data contained within scholar profiles are for use in facilitating research and collaboration amongst colleagues. Neither Customer nor its Authorized Users may export or otherwise exploit the scholar profiles for mass mailings or similar marketing purposes.
5. Electronic Resource Discovery, Access, and Management. For electronic resource discovery (e.g., Summon, 360 Link), access and/or management services, the Customer reserves all right, title and interest in all Customer specific data it contributes to the Service (which may include but is not limited to Customer created metadata, bibliographic information, holdings and circulation data) and grants ProQuest permission to use such data in raw form for the limited purpose of operating and improving the Service and such information may only be provided to third parties in aggregate form. Raw usage data containing information relating to the identity of specific users shall not be provided to any third party without Customer's permission. Provided that such access, use, and/or sharing does not violate an express provision of this Agreement, Customer and its Authorized Users are permitted to: (a) access the Service and information derived from the Service in order to discover, manage and provide access to library resources owned or licensed by Customer, (b) create, store and retain any reports and lists delivered by the Service, (c) share data about Customer's own library holdings that is retrieved from such Service with third party applications, so long as prior written notice is provided to ProQuest and all pricing information is kept confidential to the fullest extent permitted by applicable law; and (d) display metadata, bibliographic and holdings information in the library catalog available on Customer's library website.
6. Library Catalog Enrichment Service. For library catalog enrichment Services (e.g., Syndetics), Customer may use the enrichment elements for the sole purpose of augmenting Customer's own library OPAC or website. Customer may not convert Service metadata records into MARC format, nor distribute or display the enrichment elements in any third party applications, catalogs or websites.
7. Purchased Content. For perpetual archive licenses ("PAL") (as specified on the ProQuest Websites or Order Form), Customer pays a one-time fee for a perpetual license to the designated materials (the "Purchased Content"), and an annual "Continuing Service Fee."
 - a) Perpetual License. The License to Purchased Content and any updates Customer receives is perpetual, and may only be revoked if Customer materially breaches this Agreement, or if the licensed materials contain errors or could be subject to an infringement or other adverse claim by a third party.
 - b) Continuing Services. In consideration of the Continuing Service Fee, ProQuest will provide Customer and its Authorized Users with online access to the Purchased Content, plus any included updates, on a proprietary platform designed to enhance the research experience (a "ProQuest Platform"). ProQuest will maintain systems and technology that help Customer comply with use restrictions and security standards required by ProQuest's licensors.
 - c) File Delivery. If Customer loses the ability to access its Purchased Content online through ProQuest (e.g., if ProQuest discontinues online access services), or if the Purchased Content is otherwise eligible for local loading, Customer may obtain digital copies upon certifying that it will secure and restrict use of the Purchased Content as contemplated under this Agreement, using systems and technology at least as protective as ProQuest's. In the case of Audio, any local access must be restricted by DRM and be limited to one (1) simultaneous user (unless the Customer tracks the

- necessary playbacks and makes all royalty payments to copyright holders for mechanical and performance rights). All use of the materials delivered continue to be subject to this Agreement. File transfer costs, if any, are Customer's responsibility.
- d) Locally Loaded Purchased Content - Data Mining. Subject to any content-specific restrictions, Customer and its Authorized Users may extract and compile data from locally-loaded copies of the Purchased Content solely for Customer's teaching, learning, and research purposes.

Purchase preferences and Service eligibility for these models are described on the ProQuest Websites. Examples of these types of purchase models include Patron Driven Acquisition (PDA), Demand Driven Acquisition (DDA), Evidenced Based Acquisition, Access-To-Own (ATO), and Build By Choice.
9. Analytics. Some Services contain library collection analysis capabilities related to library holdings, or functionality that allows Authorized Users to create reports, lists, or alerts. Customer and Authorized Users may create, download, store and retain any such analytics or lists delivered by the Service. ProQuest may use library holdings and other information in the Service for comparison and metrics purposes and in order to better understand the customers' needs.

3. License.

(a) **License Grant.** Subject to Licensee's compliance in all material respects with the terms and conditions of this Agreement, IEEE grants Licensee a non-exclusive, non-transferable license to use the Licensed Products and to provide access to the Licensed Products electronically via the Internet only to Authorized Users at Authorized Sites or via Remote Access in accordance with the terms and conditions of this Agreement.

(b) **Authorized Uses.** Licensee and its Authorized Users may access and use the Licensed Products only for scholarly and research purposes and only as follows: (1) access, search, browse and view the Licensed Products; (2) download and print individual Articles and make a reasonable number of photocopies of a printed Article; (3) print a reasonable number of pages from an eBook and make a reasonable number of photocopies of those printed pages; (4) forward links to individual Articles and eBooks to Authorized Users; (5) post up to twenty-five (25) Articles or eBooks per semester, per course in PDF or HTML format for the purposes of electronic course reserves on Licensee's internal, secured computer network accessible only to Authorized Users; (6) as part of the practice commonly known as "interlibrary loan," deliver a reasonable number of copies of Articles (including through use of Ariel or a substantially similar interlibrary loan transmission software) to fulfill requests from non-commercial, academic libraries provided, however, that such practice: (i) complies with Section 108 of the U.S. Copyright Act and the guidelines developed by the National Commission on New Technological Uses of Copyrighted Works (CONTU Guidelines); (ii) does not result in systematic reproduction of the Licensed Products, any journal or issue of a journal, any Article, or any portion of the foregoing; and (iii) must not be used for any IEEE Standards; and (7) perform and engage in TDM provided that Licensee notifies IEEE prior to performance or engagement of each TDM activity or operation. Licensee and IEEE will mutually determine how Licensee and its Authorized Users may access and use the Licensed Products to perform or engage in TDM. Licensee and its Authorized Users may make available or share and/or utilize TDM Output so long as the results are not used for commercial purposes or to substitute the Licensed Products.

(c) **Restrictions.** Except as expressly permitted in this Agreement, Licensee and its Authorized Users may not: (1) download, reproduce, retain or redistribute the Licensed Products, in its entirety, or any journal or issue of a journal in the Licensed Products in any substantial or systematic manner, including, but not limited to, accessing the Licensed Products using a robot, spider, crawler, screen scraping or similar technological device; (2) electronically distribute, via e-mail or otherwise, any Article or eBook; (3) abridge, modify, translate or create any derivative work based upon the Licensed Products without the prior written consent of IEEE; (4) display or otherwise make available any part of the Licensed Products to anyone other than Authorized Users; (5) sell, resell, rent, lease, license, sublicense, assign or otherwise transfer any rights granted under this Agreement, including, but not limited to, use of the Licensed Products for document delivery, fee-for-service or any other substantially similar commercial purpose; (6) remove, obscure or modify in any way copyright notices, other notices or disclaimers that appear on Articles or eBooks or in the Licensed Products; (7) utilize the TDM Output to enhance institutional or subject repositories in a way that would compete with the value of the final peer-reviewed journal article, or have the potential to substitute and/or replicate any other existing IEEE product, service and/or solution; (8) make the results of any TDM output available on an externally facing server or website other than as permitted in 5(b); or (9) permit a third party to harvest any TDM Output.

(d) **Change in Number of Authorized Users.** If Licensee acquires additional corporations or subsidiaries or merges with another entity and wishes to provide access to the additional locations, a fee increase commensurate with such change may be required before access and use of the Licensed Products is provided to or for the benefit of the additional user population, Authorized Users and/or Authorized Sites. Likewise, if Licensee divests a significant operating group, division, or affiliate, then this Agreement may be subject to renegotiation.

4. Intellectual Property Rights.

(a) **Ownership.** Licensee acknowledges and agrees that all right, title and interest in and to the Licensed Products, including all copyright and other intellectual property rights under United States and international laws and treaties, remain with IEEE and its licensors.

(b) **Protection.** Licensee recognizes the value of the Licensed Products and agrees that unauthorized use and access may substantially harm IEEE. To prevent this, Licensee agrees that:

(1) Licensee shall make reasonable efforts to advise all Authorized Users of IEEE's rights and restrictions on the use of the Licensed Products, including those set forth in Sections 3(a) and 4(a).

(2) In the event that Licensee becomes aware of any unauthorized use of the Licensed Products, including but not limited to, by way of Licensee's IP addresses, equipment or other facilities, Licensee

shall promptly give written notice to IEEE of such unauthorized use and use its commercially reasonable best efforts to eliminate such unauthorized use.

(3) Licensee shall at all times implement appropriate security policies, procedures, access control methodologies and network protection techniques to safeguard access to the Licensed Products. All such measures shall comply with prevailing industry standards but in no case consist of less than reasonable care.

(4) IEEE shall have the right to inquire about the security procedures being used by Licensee and suggest improvements.

5. Term and Termination.

(a) **Term.** Unless terminated sooner in accordance with Section 5(b), this Agreement shall continue in effect for an initial term of twelve (12) months from the Service Date (the "Initial Term"). Licensee may renew the Agreement for additional twelve (12)-month periods, unless otherwise specified, (each, a "Renewal Term") upon written notice to IEEE and payment of the annual license fee, as determined by IEEE, within thirty (30) days prior to the expiration of the Initial Term or any Renewal Term. In the event that Licensee elects to not renew, Licensee shall notify IEEE at least thirty (30) days prior to the Renewal Term.

(b) **Termination.** Notwithstanding the terms of Section 5(a), this Agreement may be terminated as follows:

(1) **Material Breach.** Either party may terminate this Agreement in the event of a material breach by the other party that remains uncured thirty (30) days after the non-breaching party gives the breaching party written notice of such breach.

(2) **Suspension.** In the event that IEEE notifies Licensee of a material breach of Section 3(c)(1), IEEE reserves the right to suspend Licensee's access to the Licensed Products. IEEE will make commercially reasonable efforts to limit suspension to the offending IP address or user account, to the extent that the offending IP address or user account can be reasonably ascertained under the circumstances; otherwise, IEEE reserves the right to suspend all online access to the Licensed Products by Licensee. The suspension shall remain in effect until Licensee has cured the material breach, and Licensee shall not be entitled to a refund of any fees during such suspension. If Licensee does not cure the material breach within thirty (30) days after notice of such breach, IEEE shall be entitled to terminate this Agreement immediately.

(3) **Insolvency.** Either party may terminate this Agreement in the event that the other party becomes insolvent or bankrupt; becomes the subject of any proceedings under bankruptcy, insolvency or debtor's relief law; has a receiver or manager appointed; makes an assignment for the benefit of creditors; or takes the benefit of any applicable law or statute in force for the winding up or liquidation of such party's business.

(c) **Events Upon Termination.** Upon termination of this Agreement, Licensee shall make reasonable efforts to delete all electronic copies of Articles and eBooks that are in its possession or control. Licensee may continue to use print copies of Articles and excerpts from eBooks made in accordance with the terms and conditions herein during the term of this Agreement, provided that Section 3(c) shall continue to govern use of such materials.

6. Representations and Warranties. IEEE and Licensee each represents and warrants to the other that: (a) it has the necessary power and authority to enter into this Agreement; (b) the execution and performance of this Agreement has been authorized by all necessary corporate or institutional action; (c) entry into and performance of this Agreement will not conflict with any provision of law or the certificate of incorporation, by-laws or comparable organizational documents of the party or conflict with any condition of any contract to which it is a party; (d) no action by any governmental organization is necessary to make this Agreement valid and binding upon the party; and (e) it possesses all licenses and other governmental approvals necessary to perform its obligations under this Agreement.

7. DISCLAIMER. THE LICENSED PRODUCTS ARE PROVIDED TO LICENSEE "AS IS" AND "WITH ALL FAULTS." IEEE, TO THE MAXIMUM EXTENT PERMITTED BY LAW, EXPRESSLY DISCLAIMS ALL WARRANTIES AND REPRESENTATIONS (EXCEPT AS SET FORTH IN SECTION 6), EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION: (A) THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE; AND (B) ANY WARRANTY WITH RESPECT TO THE QUALITY, ACCURACY, CURRENCY OR COMPLETENESS OF THE LICENSED PRODUCTS, OR THAT LICENSEE'S USE OF THE LICENSED PRODUCTS WILL BE ERROR-FREE, UNINTERRUPTED, FREE FROM OTHER FAILURES OR WILL MEET LICENSEE'S REQUIREMENTS. LICENSEE ACKNOWLEDGES AND AGREES THAT THE CONTENTS OF THE LICENSED PRODUCTS ARE SUBJECT TO CHANGE.

8. LIMITATION OF LIABILITY.

(a) IN NO EVENT SHALL EITHER PARTY BE LIABLE TO THE OTHER PARTY FOR ANY INCIDENTAL, INDIRECT, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, DAMAGES ARISING FROM ANY TYPE OR MANNER OF COMMERCIAL, BUSINESS OR FINANCIAL LOSS OCCASIONED BY OR RESULTING FROM ANY USE OF THE LICENSED PRODUCTS, SUCH AS ANY MALFUNCTION, DEFECT OR FAILURE OF THE LICENSED PRODUCTS OR THEIR DELIVERY VIA THE INTERNET, EVEN IF SUCH PARTY HAD ACTUAL OR CONSTRUCTIVE KNOWLEDGE OF THE POSSIBILITY OF SUCH DAMAGES AND REGARDLESS OF WHETHER SUCH DAMAGES WERE FORESEEABLE.

(b) IEEE UNDERTAKES NO RESPONSIBILITY FOR, AND DISCLAIMS ALL LIABILITY ARISING FROM, ANY DEFECTS OR FAILURES IN ANY COMMUNICATIONS LINES, THE INTERNET OR INTERNET SERVICE PROVIDER, LICENSEE'S COMPUTER HARDWARE OR SOFTWARE, OR ANY OTHER SERVICE OR DEVICE USED TO ACCESS THE LICENSED PRODUCTS OR TO AUTHENTICATE ANY USER AS AN AUTHORIZED USER. LICENSEE ACKNOWLEDGES AND AGREES THAT IEEE IS NOT RESPONSIBLE FOR THE ACCURACY OF ANY INFORMATION OR DATA CONTAINED IN THE LICENSED PRODUCTS, AND IEEE SHALL NOT BE LIABLE FOR ANY LOSSES OR DAMAGES RESULTING FROM RELIANCE ON ANY SUCH INFORMATION OR DATA UNDER ANY CIRCUMSTANCES.

9. Post Cancellation Access.

(a) Upon termination of this Agreement, except in the event of termination by IEEE pursuant to Section 5(b), subscribing institutions may have access to online post cancellation access in accordance with IEEE's prevailing practice and terms.

(e) A cancelling customer must send a specific written request to their IEEE sales representative or the authorized dealer for a quote for post cancellation access.

10. General.

(a) Accessibility. IEEE shall use commercially reasonable efforts to provide an accessible web presence in accordance with the IEEE Accessibility Statement (<https://www.ieee.org/accessibility-statement.html>), which may be amended from time to time. IEEE will make reasonable efforts to promptly respond to and resolve any complaint regarding accessibility of the Licensed Products.

(b) Data Protection. In the event that IEEE's performance of its obligations under this Agreement requires that IEEE receive or otherwise process any personal data of Licensee or its Authorized Users, IEEE shall process such personal data in accordance with the IEEE Privacy Policy (<https://www.ieee.org/security-privacy.html>), which may be amended from time to time, and the applicable data protection laws.

(c) Notice. Notices given under this Agreement shall be in writing and may be delivered by hand or sent by internationally-recognized courier service, e-mail or fax to the physical address, e-mail address or facsimile number for each party set forth on the first page of this Agreement. (g) Severability. If any provision of this Agreement shall be held to be invalid or unenforceable under applicable law, then such provision shall be construed, limited, modified or, if necessary, severed to the extent necessary to eliminate its unenforceability. Such provision shall be ineffective to the extent of such invalidity or unenforceability only, without in any way affecting the remaining parts of this Agreement.

(h) Force Majeure. Any prevention of or delay in either party's performance hereunder due to labor disputes, acts of God, governmental restrictions, enemy or hostile governmental action, fire or other casualty or other causes beyond such party's reasonable control shall excuse such party's performance of its obligations hereunder for a period equal to the duration of any such prevention or delay.

(i) Non-Waiver. The failure of either party to require strict performance by the other party of any provision hereof shall not affect the full right to require such performance at any time thereafter, nor shall the waiver by either party of a breach of any provision hereof be taken or held to be a waiver of the provision itself.

(j) Survival. The provisions of this Agreement that should by their nature survive termination of this Agreement shall survive such termination, including, but not limited to, Sections 3(c), 4, 5(c), 6, 7, 8, 9, and 10.

Persons engaging in the procedures included herein do so entirely at their own risk.

I. LICENSE

A. EBSCO hereby grants to the Licensee a nontransferable and non-exclusive right to use the Databases and Services made available by EBSCO according to the terms and conditions of this Agreement. The Databases and Services made available to Authorized Users are the subject of copyright protection, and the original copyright owner (EBSCO or its licensors) retains the ownership of the Databases and Services and all portions thereof. B. The Licensee is authorized to provide on-site access through the Sites to the Databases and Services to any Authorized User. The Licensee may not post passwords to the Databases or Services on any publicly indexed websites. The Licensee and Sites are authorized to provide remote access to the Databases and Services only to their patrons as long as security procedures are undertaken that will prevent remote access by institutions, employees at non-subscribing institutions or individuals, that are not parties to this Agreement who are not expressly and specifically granted access by EBSCO. For the avoidance of doubt, if Licensee provides remote access to individuals on a broader scale than was contemplated at the inception of this Agreement then EBSCO may hold the Licensee in breach and suspend access to the Database(s) or Services. **Remote access to the Databases or Services is permitted to patrons of subscribing institutions accessing from remote locations for personal, non-commercial use. However, remote access to the Databases or Services from non-subscribing institutions is not allowed if the purpose of the use is for commercial gain through cost reduction or avoidance for a non-subscribing institution.**

Licensee and Authorized Users may create printouts of materials retrieved through the Databases or Services online printing, offline printing, facsimile or electronic mail. All reproduction and distribution of such printouts, and all downloading and electronic storage of materials retrieved through the Databases or Services shall be for internal or personal use. Downloading all or parts of the Databases or Services in a systematic or regular manner so as to create a collection of materials comprising all or part of the Databases or Services is strictly prohibited whether or not such collection is in electronic or print form. Notwithstanding the above restrictions, this paragraph shall not restrict the use of the materials under the doctrine of "fair use" as defined under the laws of the United States. Publishers may impose their own conditions of use applicable only to their content. Such conditions of use shall be displayed on the computer screen displays associated with such content. The Licensee shall take all reasonable precautions to limit the usage of the Databases or Services to those specifically authorized by this Agreement.

D. Authorized Sites may be added or deleted from this Agreement as mutually agreed upon by EBSCO and Licensee

E. Licensee agrees to comply with the Copyright Act of 1976, and agrees to indemnify EBSCO against any actions by Licensee that are not consistent with the Copyright Act of 1976.

F. The computer software utilized via EBSCO's Databases and Service(s) is protected by copyright law and international treaties. Unauthorized reproduction or distribution of this software, or any portion of it, is not allowed. User shall not reverse engineer, decompile, disassemble, modify, translate, make any attempt to discover the source code of the software, or create derivative works from the software.

G. The Databases are not intended to replace Licensee's existing subscriptions to content available in the Databases.

H. Licensee agrees not to include any advertising in the Databases or Services.

II. LIMITED WARRANTY AND LIMITATION OF LIABILITY

A. EBSCO and its licensors disclaim all warranties, express or implied, including, but not limited to, warranties of merchantability, noninfringement, or fitness for a particular purpose. Neither EBSCO nor its licensors assume or authorize any other person to assume for EBSCO or its licensors any other liability in connection with the licensing of the Databases or the Services under this Agreement and/or its use thereof by the Licensee and Sites or Authorized Users.

B. THE MAXIMUM LIABILITY OF EBSCO AND ITS LICENSORS, IF ANY, UNDER THIS AGREEMENT, OR ARISING OUT OF ANY CLAIM RELATED TO THE PRODUCTS, FOR DIRECT DAMAGES, WHETHER IN CONTRACT, TORT OR OTHERWISE SHALL BE LIMITED TO THE TOTAL AMOUNT OF FEES RECEIVED BY EBSCO FROM LICENSEE HEREUNDER UP TO THE TIME THE CAUSE OF ACTION GIVING RISE TO SUCH LIABILITY OCCURRED. IN NO EVENT SHALL EBSCO OR ITS LICENSORS BE LIABLE TO LICENSEE OR ANY AUTHORIZED USER FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR SPECIAL DAMAGES RELATED TO THE USE OF THE

DATABASES OR SERVICES OR TO THESE TERMS AND CONDITIONS, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

C. Licensee is responsible for maintaining a valid license to the third party resources configured to be used via the Services (if applicable). EBSCO disclaims any responsibility or liability for a Licensee accessing the third party resources without proper authorization.

D. EBSCO is not responsible if the third party resources accessible via the Services fail to operate properly or if the third party resources accessible via the Services cause issues for the Licensee. While EBSCO will make best efforts to help troubleshoot problems, Licensee acknowledges that certain aspects of functionality may be dependent on third party resource providers who may need to be contacted directly for resolution.

III. PRICE AND PAYMENT

A. License fees have been agreed upon by EBSCO and the Licensee, and include all retrospective issues of the Product(s) as well as updates furnished during the term of this Agreement. The Licensee's obligations of payment shall be to EBSCO or its assignee. Payments are due upon receipt of invoice(s) and will be deemed delinquent if not received within thirty (30) days. Delinquent invoices are subject to interest charges of 12% per annum on the unpaid balance (or the maximum rate allowed by law if such rate is less than 12%). The Licensee will be liable for all costs of collection. Failure or delay in rendering payments due EBSCO under this Agreement will, at EBSCO's option, constitute material breach of this Agreement. If changes are made resulting in amendments to the listing of authorized Sites, Databases, Services and pricing identified in this Agreement, pro rata adjustments of the contracted price will be calculated by EBSCO and invoiced to the Licensee and/or Sites accordingly as of the date of any such changes. Payment will be due upon receipt of any additional pro rata invoices and will be deemed delinquent if not received within thirty (30) days of the invoice dates.

B. Taxes, if any, are not included in the agreed upon price and may be invoiced separately. Any taxes applicable to the Database(s) under this Agreement, whether or not such taxes are invoiced by EBSCO, will be the exclusive responsibility of the Licensee and/or Sites.

IV. TERMINATION

A. In the event of a breach of any of its obligations under this Agreement, Licensee shall have the right to remedy the breach within thirty (30) days upon receipt of written notice from EBSCO. Within the period of such notice, Licensee shall make every reasonable effort and document said effort to remedy such a breach and shall institute any reasonable procedures to prevent future occurrences of such breaches. If the Licensee fails to remedy such a breach within the period of thirty (30) days, EBSCO may (at its option) terminate this Agreement upon written notice to the Licensee.

B. If EBSCO becomes aware of a material breach of Licensee's obligations under this Agreement or a breach by Licensee or Authorized Users of the rights of EBSCO or its licensors or an infringement on the rights of EBSCO or its licensors, then EBSCO will notify the Licensee immediately in writing and shall have the right to temporarily suspend the Licensee's access to the Databases or Services. Licensee shall be given the opportunity to remedy the breach or infringement within thirty (30) days following receipt of written notice from EBSCO. Once the breach or infringement has been remedied or the offending activity halted, EBSCO shall reinstate access to the Databases or Services. If the Licensee does not satisfactorily remedy the offending activity within thirty (30) days, EBSCO may terminate this Agreement upon written notice to the Licensee.

C. The provisions set forth in Sections I, II and V of this Agreement shall survive the term of this Agreement and shall continue in force into perpetuity.

V. NOTICES OF CLAIMED COPYRIGHT INFRINGEMENT

C. If any term or condition of this Agreement is found by a court of competent jurisdiction or administrative agency to be invalid or unenforceable, the remaining terms and conditions thereof shall remain in full force and effect so long as a valid Agreement is in effect.

D. If the Licensee and/or Sites use purchase orders in conjunction with this Agreement, then the Licensee and/or Sites agree that the following statement is hereby automatically made part of such purchase orders: "The terms and conditions set forth in the EBSCO License Agreement are made part of this purchase order and are in lieu of all terms and conditions, express or implied, in this purchase order, including any renewals hereof."

White Paper: Information Security Practices Introduction

Information Security (IS) is a priority at EBSCO Information Services (EBSCO). Our mission is to incorporate security and risk management practices into our policies, procedures, and day-to-day operations within the organization. This approach enables appropriate diligence to ensure adequate protection of information assets and systems.

EBSCO's IS practices and strategies provide controls at multiple levels of the data lifecycle, from receipt to access, transfer, and destruction.

EBSCO is an international corporation producing products and services for customers across multiple markets. Our approach and tools will accommodate variances in requirements based on market or locale. We are committed to the confidentiality, integrity and availability of our information assets.

Information Security Policies & Management

EBSCO's Information Security Policy stands as the core of our IS program. Policies address security-related topics across the information asset lifecycle: from general policy roles – outsourcing security controls, change management, data classification, data retention and disposal, paper and electronic media, and system configuration requirements – to more specialized policies addressing anti-virus, encryption, backup, logging, and physical security controls. Our policies are developed in conjunction with the EBSCO Chief Information Officer (CIO) as well as the Legal, EBSCO Information Security and Business Continuity Management teams. The EBSCO IS office is responsible for maintaining all of EBSCO's information security policies, facilitating the development of processes for secure application development and security assessments, and auditing current practices to ensure compliance with policy.

EBSCO's Information Security team

The EBSCO IS team holds specific certifications (ISC2, SANS/GIAC) specializing in Information Systems, Intrusion Analysis / Prevention, Incident Handling, Computer Forensics, in addition to having years of experience working with industry security best practices.

Is responsible for developing a strategy and approach to achieve objectives consistent with EBSCO's desired information security posture. EIS InfoSec is also responsible for developing, facilitating and/or overseeing the information policies, standards, guidelines, strategies and procedures; for conducting risk assessments; for managing incidents, and for providing internal / external reporting.

Lastly, IS constantly evaluates the effectiveness of ongoing security operational processes and monitors compliance for internal and external requirements. As such, a core component of our approach to protecting our information assets is continuous training and awareness of information security policies and procedures across all levels of personnel at EBSCO. As examples, EBSCO continues to mature its practices in the following areas:

- On-boarding education of EBSCO's information security policies and practices
- IS training and awareness based on roles and responsibilities, on handling and securing information assets
- Targeted information security discussion and presentations on security-related topics
- IS team access and membership to information security communities and organizations such as SANS, IAPP, BCI, DRI, etc.
- IS communications to EBSCO's employee population regarding latest threats, practices, guidelines, etc.

Information Asset Protection

EBSCO security policies provide a series of threat prevention and infrastructure management procedures, including the following:

Incident Management

EBSCO has an incident management approach that ensures security issues are handled accordingly. This involves ensuring incident response procedures are followed in order to contain or eradicate any threats or issues, taking due diligence in investigating and reporting the incident, taking appropriate steps to recover from the incident, and, if necessary, taking appropriate steps to escalate issues to senior management, law enforcement, or other key stakeholders. Events that directly impact customers are highest priority.

Post-event assessments are conducted to determine the root cause for events, regardless of threat, to understand if the causes are one-time, or trends, to adjust response or prevent recurrence.

Incident management procedures are exercised based on threat scenarios (e.g., insider threats, phishing, social engineering, software vulnerabilities) as needed to ensure that processes are efficient and stakeholders understand protocol.

Monitoring

EBSCO employs monitoring across its environments with multiple tools (a combination of open source and commercial tools) to identify, track, monitor, and report on pertinent risks, vulnerabilities (e.g., host availability, application response time, security events, etc.) Monitoring tools are set up to provide alarms and notices to EBSCO staff, who review and assess system logs to identify malicious activity. Ongoing analysis across environments helps identify potential threats for escalation to EBSCO IS staff.

Vulnerability Management

The EBSCO IS team scans for security threats using commercial, automated and manual methods. The team is also responsible for tracking and following up on any potential vulnerabilities that might be detected. The team has the capability to scan environments (both internal and external) and is updated on new systems within our environment.

Once EBSCO's Technology and IS teams have identified a vulnerability, it is prioritized according to severity and impact and remediated accordingly. The EBSCO IS team tracks risk and vulnerabilities until remediation.

Malware Prevention, Detection & Remediation

EBSCO uses multiple tools to address malware and phishing risks (e.g., firewalls, anti-virus, backups, automated and manual scanning, end-user awareness). EBSCO's IS team periodically evaluates new technologies to mitigate malware and Advance Persistent Threats (APTs) to stay as protected as possible from these risks.

Network Security

EBSCO employs multiple layers of defense to secure information under our control, including protecting the network perimeter from external attacks – allowing only authorized services and protocols to access EBSCO's systems and services.

EBSCO's network security strategies, among other capabilities, include network segregation (e.g., production vs. testing, DMZ, service delivery vs. corporate).

Application Security

EBSCO employs Next Generation and Application Firewall technologies to mitigate the latest threat and attack vectors such as:

- Zero Day exploits
- Web application attacks (OWASP Top10)
- "Brute Force" and "Low and Slow" attacks
- Content scraping/harvesting
- Phishing/Spear Phishing
- Botnet/SpamBot activity
- Known malicious sources/actors

EBSCO leverages these technologies coupled with commercial threat intelligence feeds to create a comprehensive solution to detect and mitigate targeted application attacks before they have a chance for success.

Logical System Access

EBSCO has controls and practices to protect the security of customer information and employees. EBSCO maintains detailed logical access control security. Group access is used to grant employees access based upon their assigned function and job responsibility.

Each system user is assigned a unique user ID and password, and users are required to enter their current password prior to creating a new password.

Media Disposal

EBSCO utilizes a combination of internal processes and third-party vendors for media disposal. Destruction is based on the information asset classification and retention requirements. Certificates of destruction are collected, as required, from external third parties.

Logging Controls

EBSCO's policies provide that all event logs must be collected and protected from unauthorized access. The viewing of logs occurs only as required. The logs are further protected by a file integrity monitoring system that alerts the IS department of unauthorized access and modification.

Personnel Controls

EBSCO employees are required to conduct themselves in a manner consistent with the company's guidelines regarding confidentiality, business ethics, appropriate usage, and professional standards.

EBSCO will verify an individual's education and previous employment, and perform internal and external reference checks. Where local laws or statutory regulations permit, EBSCO may also conduct criminal, credit, immigration, and security checks. The extent of background checks is dependent on the desired position.

Upon acceptance of employment at EBSCO, all employees are required to execute a confidentiality agreement that documents the receipt of, and compliance with, EBSCO policies.

At EBSCO, all employees are responsible for information security. As part of this responsibility, they are tasked with communicating security and privacy issues to designated management in Technology, IS, and/or the CIO.

Physical and Environmental Security

EBSCO has policies, procedures, and infrastructure to handle both the physical security of its data centers as well as the environment in which the data centers operate. These include:

Physical Security Controls

EBSCO's data centers employ a variety of physical security measures. The technology and security mechanisms used in these facilities may vary depending on local conditions such as building location and regional risks. The standard physical security controls implemented at EBSCO data centers includes the following:

- electronic card access control systems
- intrusion detectors and alarms
- computer inventory control
- interior and exterior cameras
- 24/7 security guard access

Access to areas where systems, or system components, are installed or stored is segregated from general office and public areas such as lobbies. The cameras and alarms for each of these areas are centrally monitored. Activity records and camera footage are kept for later review, as needed.

Access to all data center facilities is restricted to authorized EBSCO employees, approved visitors, and approved third parties whose job it is to operate the data center. EBSCO maintains a visitor access policy and procedures on approvals for visitors, third parties, and employees who do not normally have access to data center facilities. EBSCO audits who has access to its data centers on a regular basis.

EBSCO restricts access to its data centers based on role.

Environmental Controls

- **Power and Utilities** – EBSCO data centers have redundant electrical power which includes backup generators as well as multiple utility providers, services, and systems. Alternate power supplies provide power until diesel engine backup generators engage and are capable of providing emergency electrical power, at full capacity, as needed, and the redundancy of our multiple oil providers, geographically diverse, allows for continuous operation, if needed.

- **Climate Control** – EBSCO maintains redundant cooling systems to control our data center environments.
- **Fire detection, protection and suppression** – EBSCO fire protection systems include fire alarms, automatic fire detection, and fire suppression systems. Should a fire arise in our data centers, visible and audible alerts are activated and proper response is initiated, which include automated response as well as the use of physical fire extinguishers located throughout our data centers.

This Memorandum of Understanding (MoU) is made and entered into on 29 (Day) 10 (Month) 2012 (Year) between the INFLIBNET Centre, an IUC of University Grants Commission located at Ahmedabad, hereinafter referred to as "INFLIBNET" and JK LAKSHMI PAT UNIVERSITY (University / Deemed University / Inter-University Centre), here in after referred to as the 'University'.

WHEREAS, INFLIBNET Centre, an Inter-university Centre of the University Grants Commission, as its mandate, promotes open access to scholarly content generated in universities. The Centre has computers, network, software infrastructure and technical know-how required for hosting electronic versions of theses and dissertations in open access with interface to search, retrieve and access these content.

WHEREAS JK LAKSHMI PAT UNIVERSITY (University / Deemed University / Inter University Centre) has agreed to take part in the process of digitisation of old theses and dissertations (not available in computerized machine-readable format) and building-up of digital repository and to promote, share and host its ETD in 'Shodhganga: A reservoir of Indian theses submitted to the Universities in India' and other universities in open access. 'Shodhganga' is a name coined by INFLIBNET Centre for referring to the repository of Indian Electronic Theses and Dissertations. The word "Shodh" originates from Sanskrit and stands for research and discovery. The 'Ganga' is the holiest, longest and largest river in Indian subcontinent which has held heart of its people captive and drawn millions of people to its banks since the dawn of history. The Ganga is the symbol of India's age-long culture and civilization, ever changing, ever flowing, ever loved and revered by its people. "Shodhganga", a repository of theses and dissertations submitted to Indian universities, is expected to keep growing to a formidable size as more and more researchers from India submit their research works to this ever growing reservoir.

This Memorandum of Understanding (MoU) defines responsibilities, liabilities and commitments of the institutions involved to ensure proper system implementation, to meet the objectives pertaining to submission and access to Electronic Theses and Dissertations as envisaged by the UGC vide its Notification (Minimum Standards & Procedure for Award of M.Phil/Ph.D Degree), Regulation, 2009 dated 1st June, 2009.

NOW, THEREFORE, in consideration of the mutual agreements herein contained, INFLIBNET and the University agree to the following terms and conditions:

The INFLIBNET will deploy tools and techniques of digital preservation to ensure continuing access to scholarly content in digital formats and to protect them from media failure, physical loss and obsolescence.

2. Recommend to the UGC to extend financial assistance to the Universities under Sections 12(B) and 2(f) of UGC Act for digitization of theses and dissertations not available in computerized machine-readable format and / or for procurement and installation of a suitable computer system / infrastructure for creation of ETDs.
3. Provide configuration of system, specifications and technical guidance to the University for procurement of computer hardware and related systems for setting-up of ETDs.

6. Extend access to an anti-plagiarism software or provide services to evaluate theses for possible plagiarism and submit a report to the concerned university.
7. The INFLIBNET may refuse to host any material deemed by the INFLIBNET to be controversial in nature or is in violation of copyright act.
8. This right of refusal will not relieve the University / Ph.D. scholar of liability, both to INFLIBNET and to the public, for matter contained in the theses that may be libelous or actionable and to both INFLIBNET and copyright owners for copyright infringement by the Ph.D. Scholar.
9. The INFLIBNET Centre will not be responsible for i) errors, omissions, inaccuracies and quality of content or misinformation or for any damages caused to the user or any third party from the use of content provided in the theses; ii) safety and archiving of loaded content in cases of "force measure" including natural calamities; and iii) printed version of theses.
