INTRODUCTION

A clean and healthy environment aids effective learning and provides a conducive learning environment. There are various efforts around the world to address environmental education issues.

Environmental Management Systems (EMS) is very popular in the industrial sector, but the general belief is that EMS is something pertaining to industries only. Other parts of the world have started adopting compatible environmental management systems either voluntarily or for promoting standards by external certification. International environmental standards do not suit the existing Indian educational system. Hence EHS Alliance has developed a compatible system by developing locally-applicable techniques.

A very simple indigenized system has been devised to monitor the environmental performance of educational Universities. It comes with a series of questions to be answered on a regular basis. Environmental conditions may be monitored from angles that are relevant to Indian requirements, without stress on legal issues or compliance. This innovative scheme is user- friendly and totally voluntary. The environmental monitoring system helps the University to set environmental examples for the community and to educate young learners. It can be adapted to urban and / or rural situations.

OVERVIEW OF UNIVERSITY

JK LakshmiPat University (JKLU), Jaipur Established in 2011, JK LakshmiPat University (JKLU) is located in the historic city of Jaipur, Rajasthan. Supported by the JK Organization- 125 years old legacy of contributions to nation- building, the JKLU is passionate about building the country's most innovative higher education University. The 30-acre campus is a modern, environmentally conscious and inviting space designed to help students live, work and play in a setting that is safe, productive and student-centric. JKLU has the following vision and mission:

Vision: - To create an educational environment that engages deep intellectual, moral and spiritual stimulation, thereby nurturing leadership.

Mission: - To Practice a 'mentoring' based education system with intellectual, moral and spiritual culture of its own rooted in Indian ethos and in tune with the global vision of the time. To inculcate learning through understanding, knowledge enhancement, skill development and positive attitude formation. To encourage innovative thinking. To develop a mindset for action without fear, with self-discipline and care for society.

Green Audit

The University has a sprawling lush green campus and offers the students an open, green and high-tech learning environment, combining the serene settings of the Gurukuls of yesteryears with the technological advancements of the new age. The campus presently prides of having 1400 trees of different varieties, flowering shrubs and plants which makes the campus green and color full.

As part of their CSR initiative, National Seeds Corporation gifted 300 saplings. A tree plantation campaign was organized in the campus by the students in the presence of the officials of National Seeds Corporation on March 31, 2016. A tree plantation campaign by the fresher's is planted during the onset of the monsoons in the month of July and August. The event was coordinated by Col. S. Manohar.

We have a dedicated contract with M/s. Vikram Nursery, C-18, Gayatri Nagar Vistar, Rampath, Maharani Farm, Durgapura, Jaipur for gardening and maintaining greenery in the campus.

The University implements effective waste management through waste segregation and disposing of the waste through concerned agencies.

Modern rain water harvesting system is available with roof area of around 10,000 sq. ft. at JKLU.

Campus has sufficient space for parking vehicles of staff and students. Roads inside the campus are well maintained. Pedestrians can walk safely through the campus through walk friendly pathways.

Waste water recycling. - Sewage treatment plant (STP) facility for waste water recycling of capacity 100 KLD setup installed in JKLU on 4th Sep 2014, helps us in removing contaminants from wastewater, primarily from sewage generated from the mess, hostel, building etc. We further utilize this water for the horticulture & fields.

Green campus

1	Is there a garden in your University?	Yes, about 60% of total area (30 acre.) are developed as Gardens / Sports ground.
