

Course Name: Statistical Data Analysis (AS2101)

This course aims to introduce basic concepts in descriptive and inferential statistics, as well as data exploration methods. Topics covered include probability distributions, hypothesis testing, frequency analysis, correlation, regression and design of experiments.

Date of launch: August 2019

Faculty: Prof. Gustavo Sanchez

Assignment Comments
Hii Sir
Good Morning this was final report by me and roshan please check it once if you found any mistakes inform me once sir
Thank You Sir
