There is **1** Secretary Alumni Relations who looks after maintain healthy and long lasting relations with the Alumni's of JKLU and conducting time to time Alumni Meetups/events in the campus.

PRH : Public Relations Head

There is **1** Public Relations Head who looks after bringing opportunities from outside the campus for JKLU students to participate in other college/universities annual fest/events/activities.

RECOMMENDATIONS

1. 2020-21 Council should typically consist of students from 1st, 2nd & 3rd year. The reason is that they would have better awareness of the issues and have more time to work for the Council than final year B.Tech or MBA students.
2. ARs should be allowed to play a role in scheduling classes. There are often many breaks in between and time gets wasted. During such breaks (which are not long breaks), students, especially day scholars, do not have any place to go to take rest in (they can only go to the LRC or cafeteria or sit on the stairs of the college). They feel that if the time table was planned better, they could save a lot of time and take rest or engage in activities of their interest – in short, utilize their time more fruitfully and effectively.
3. Awareness about Technical events should be created in the campus and more students should be encouraged to participate in other college/universities events so that they can be more aware about what's the current trend and level of events and where they need to work hard.
4. Students should be allowed to form the Clubs and nominate and select their mentors (Faculty coordinators). The Faculty coordinators should not be imposed upon them.
5. There should be link between student council and students clubs of JKLU in such a way that Cultural Representatives should work with cultural clubs, Technical representatives should work with technical clubs in order to bring out the best possible and expected results from the clubs.
6. The Student Council demands more say in financial decisions. They felt, the Council should be allowed to decide what events should be covered in the entire year and recommend the budgets for approval.
